That's fine. I think we all can be surprised by how things actually play out in the end. My sense has always been that the Governor would love to be able to say he submitted the package before the election.

I agree that is what they indicated, but if they choose not to then I understand Oct is the time line. That is why I have included Oct. I have explained to trey, Blake and Mary.

Jeaneanne, Matt and I talked about the October deadline. Our recollection is that date was the earliest assuming no new rule development. So that may be possible, but our sense was they need to go back to notice of rule development on possible the esa or 5 year permit issue so it seemed very likely that it would be November.

All this assumes they will get the notice out ASAP which is not likely.

Then when you add the likelihood of challenges that they clearly expect the odds of seeing anything in October are very slim.

All,

I am ok with this except for one change. I purposely put in the Oct time frame as the earliest because as I understand it FL could technically submit in that timeframe....while we understand that they may not – they could technically.

If you believe that is incorrect please let me know – otherwise with that change Cesar can submit to the ORA. Please also include the two lists we discussed.

Thanks

Mary and Blake

Attached is a shortened version of the timeline. I am sending this to Tom to run by the Attys early tomorrow and our experts. If they suggest any changes I will let you know. One addition to what you received earlier is that I have included Tribal Consultation.
